

Brains to Paper Cells

- In this activity, each lab group will try to see what they remember about cells. Each group will be required to draw a picture of an animal cell from memory.
- Each group must include:
 - A drawing of each of the organelles (drawn correctly) - all 13!
 - Labeling of each of the organelles
 - Coloring of the organelles
 - Brief definition/function of organelle
 - You must fill the entire sheet of paper with your cell
