

Unit 5 Vocabulary (Chapter 6)

WORD	Definition	Easy Way to Remember
Tendon		
Ligament		
Cartilage		
Diaphysis		
Epiphysis		
Periosteum		
Endosteum		
Epiphyseal Line		

WORD	Definition	Easy Way to Remember
Epiphyseal Plate		
Articular Cartilage		
Medullary Cavity		
Compact Bone		
Spongy Bone		
Yellow Marrow		
Red Marrow		
Perforating (Sharpey's) Fibers		

WORD	Definition	Easy Way to Remember
Osteon (Haversian System)		
Concentric Lamellae		
Circumferential Lamellae		
Interstitial Lamellae		
Central (Haversian) Canal		
Perforating (Volkmann's) Canal		
Osteocyte		
Osteoblast		

WORD	Definition	Easy Way to Remember
Osteoclast		
Trabeculae		
Lacunae		
Canaliculi		
Osteoprogenitor Cells		
Ossification		
Calcification		
Intermembranous Ossification		

WORD	Definition	Easy Way to Remember
Endochondral Ossification		
Fetal Ossification		
Appositional Growth		
Endochondral Growth		
Metaphyseal Vessels		
Periosteal Vessels		
Parathyroid Hormone (PTH)
