

Anatomy & Physiology  
Unit 1 – The Human Body: An Orientation  
Unit 1 Outline Review

**Test Information**

- 50 Questions Total = 100 Points
  - 15 Multiple Choice = 30 Points
  - 5 Directional Matching = 10 Points
  - 5 Cavity Matching = 10 Points
  - 10 Organ System Matching = 20 Points
  - 5 Cavity Picture Matching = 10 Points
  - 10 Regions Matching = 20 Points

**Things to Study**

- Unit 1 PowerPoint Notes
- Regions & Directionals Quiz (online)
- Regions Worksheets
- Cavities Worksheet
- Body Systems Concept Map
- Homeostasis & Feedback
- The Human Organism Review Packet
- Chapter 1 Worksheet: Organization of the Body

**Things to Know**

- Definitions:
  - Anatomy
  - Physiology
  - Homeostasis
  - Organ system
  - Anatomical Position
- Levels of Organization
- 10 Directionals, their meanings & how to compare body parts
- 3 Planes/Cuts & How they divide the body
- Body Cavities Locations & What they Contain
- 11 Characteristics of Life with Definitions
- Homeostasis in conjunction with Negative & Positive Feedback
- 11 Organ Systems & Their Organs
- Regions of the Body Locations for Anterior & Posterior Regions
