

Anatomy & Physiology
Unit 3 – The Integumentary System
Unit 3 Outline Review

Test Information

- 55 Questions Total = 110 Points
 - 11 Multiple Choice = 22 Points
 - 3 Vocabulary Matching = 6 Points
 - 7 Epidermis & Dermis Matching = 14 Points
 - 8 Nail Picture Matching = 16 Points
 - 5 Hair Picture Matching = 10 Points
 - 3 Cancer Term Matching = 6 Points
 - 9 Burns Matching = 18 Points
 - 9 Skin Diagram Matching = 18 Points

Things to Study

- Unit 3 PowerPoint Notes
- Skin Layers & Functions Quiz (Online @ www.stagganatomy.weebly.com)
- Integumentary Packet
- Skin Diagram
- Nail Diagram
- Integumentary System Review Worksheet

Things to Know

- Definitions:
 - Keratinocytes
 - Keratin
 - Melanocytes
 - Melanin
 - Langerhans Cells
 - Stratum Corneum
 - Stratum Lucidum
 - Stratum Granulosum
 - Stratum Spinosum
 - Stratum Basale
 - Papillary Layer
 - Reticular Layer
 - Basal Cell Carcinoma
 - Squamous Cell Carcinoma
 - Malignant Melanoma
 - First-Degree Burns
 - Second-Degree Burns
 - Third-Degree Burns
- Functions of:
 - Skin
 - Hypodermis
 - Hair
 - Sweat Glands
- What accessory part of the integumentary system are found in the dermis
- Proper order of the layers of the epidermis
- Amount of sweat glands
- Where sebaceous glands are not found
- When sebaceous glands are activated
- Main dangers of burns
- Be able to label:
 - Fingernail (from notes & diagram)
 - Cross section of a finger nail (from notes & diagram)
 - Hair piece (from notes)
 - Skin (diagram)
